

Climate Emergency: Citizens say Climate Inaction will cost the Earth

In response to the Climate Emergency motion in the Legislature today climate activists fill the gallery and introduce 1044 names on petition for climate action

“Ford’s message today is ‘**carbon ‘tax’ will cost you 5 cents a litre**’ - and he is using our tax money for these ads, launched today. Our message is ‘**Climate inaction will cost us the earth**’ said Lyn Adamson, Co-Chair of ClimateFast.

Opposition MPPS will be presenting a petition of citizen signatures gathered by ClimateFast volunteers - 1044 signatures - in the House today.

We will wear black as a colour of mourning - and to mark the extreme risk facing our planet.

‘Failing to vote for climate action will make this a sad and dangerous time for Ontario’ said Allie Rougeot, of Fridays for Future youth ClimateStrike movement.

‘We need a **real climate plan for Ontario** - one that does our part for staying under 1.5C temperature rise and we have written one.’ Said Lyn Adamson, Co-Chair, ClimateFast.

The Plan is endorsed by CAPE (Canadian Association of Physicians for the Environment) and a number of environmental organizations.
